Description of The Vasilicos

The Vasilicos is a converted family house, which used to be the prized sanctuary of a passionate art collector. It has been fully renovated, and furnished with vintage and custom-made items from the family's private collection.

Ideally located in the middle of the Caldera rim, at the highest point of the Caldera cliff, The Vasilicos offers privileged views of the volcano and surrounding islands. Built, as it is, under the Monastery of Agios Nicolaos at the beginning of the village of Imerovigli, it benefits from the residential nature of the neighbourhood and its central location.

The Vasilicos is in between, and at walking distance from, the villages of Firostefani and Imerovigli, while the capital Fira is a 20-minute walk. Access to the hotel is very easy, and the hotel's private parking lot is adjacent to the property.
